

Dear Clemmie,

Just wanted you to know that I do care more than just words about you I love you; and with out being honest with you I feel that hurt worse and worse, all my life seems to be turning before me and like the past comes out and I cant fight it off. No matter what you hear here dont let any one tell you what your hart knows is right because I cannot stop these people I haft to do like they want me to do I have been telling you this all alone but for some reason I cant seem to get through, You know when I wanted to tell them on the first TV program before I could finish they get me to say what they wanted.

I'm here and have no one that I can get help from. I have even tried to make Jim and the Rangers mad at me, by telling that they gave me the information to get them to fight but instead Bob and Clayton turns their backs and runs. When I was in Georgetown they stood up. But since I come up here they get their Capt, to say I am only a lyer that made me feel that they have betrayed me, so I went on the TV and told that I haven't killed any body except my mother, how else am

I need to keep this out I can't
with out making it so I can't see and
visit you, which means my life not
to see you, when they take you away from
me how can I live my love for you.
all that I want to live for, God has been
my sholder so far, and I need you
when you are sad and get sick with
the hurt they are causing them. I
want better for you. Will you please unde-
stand me, I have no choice as long as I
am here but to do as they want, I can't
say in words what I want because they
have a way to listen to what I say to
you, and they have the upper hand on
me because ever one has turned their
backs on me, maby I have excepted some
that are not mine but how can I say
which ones I don't know. I told
you the first day, when I came here
that I did kill some people. but how
can I keep telling you over and over
with out them finding out, all I ask
is trust me and I ask Boutwell to trust
me, instead of Games. do what he promise
he would and ask Him if he wants the
truth then come see me, He can come
with the Lady he got from the F.B.I. to get
me back in Georgetown if he will come with
her then she will see for her self I have

ut if they arn't going to fight for the
truth then why hold me turn me loose
since I haven't killed any one like
they say here. Will you give him this
Message,

Jim you have been honest until lately Why are you not keeping your word to me. I told you the truth some time ago but you refuse to believe me The Hands of death has more power than the police You cant even keep a prisoner in your custody after I even gave you all the information about all these killings You and the Rangers spent 2 years almost with the Worlds most worst killer and now the Hands of Death is going to win.

I can't believe that from law enforcement
 Can't you believe any thing when it's
 right before your eyes. I guess I did
 till you they were going to shut my movie
 one way or the other. Look around you.

look at the facts the Rangers gave up
off quick even after I told you all the
this would happen, I know! but you
don't want to believe it they fixed things
real good didn't they?
